euro I stand

The third generation of this portable folding display system sets new standard in ease of operation and absolute flexibility in design.

EUROsystem removes all barriers to creative freedom. Innovative materials such as laminate structures can be freely combined with conventional graphics to create a truly impressive promotional display.

Users see just how flexible EUROsystem is when it comes to assembly and dismantling this perfect medium of presentation; attractive and yet subtle.

The secret of the EUROsystem lies in its magnetism. It'll pull you in, too. Give your display a whole new feeling!

Newly designed connections:
A whole new world of possibilities.

Distancers make assembly and dismantling simpler and easier.

Variable panel hanging

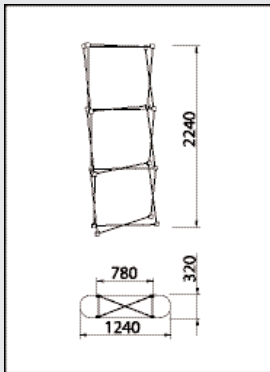

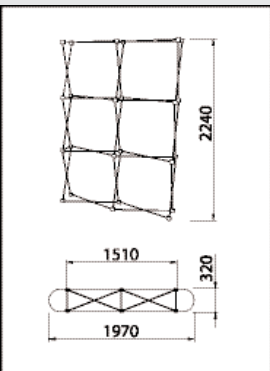

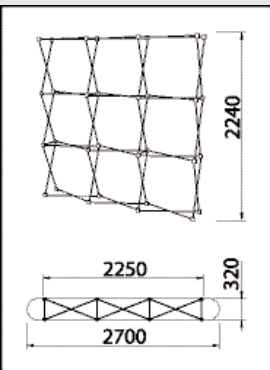

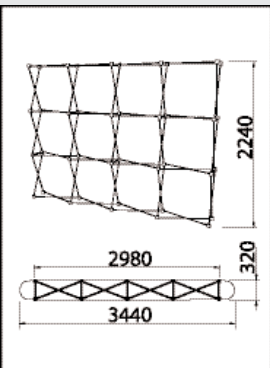

Simply magnetic!
No plastic connectors, no click, screw or clamp locks.

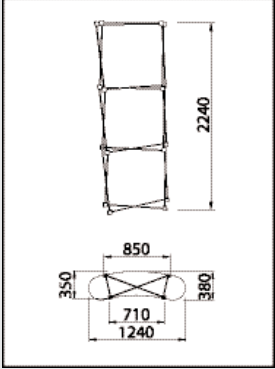

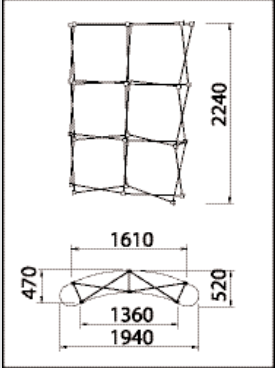

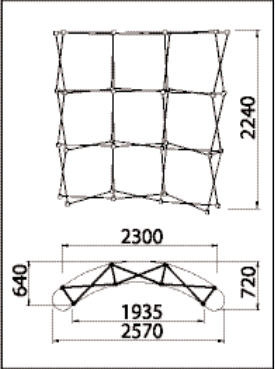

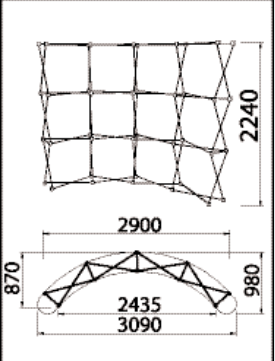

The perfect couple in perfect harmony.
The newly developed magnet rails at the connection point.

In no time at all you have a breathtaking display. EURObanner is a space-saver and yet attracts the attention of every observer.

This system can be used with a wide range of materials for printed graphics.

EURObanner allows you to use one or both sides for displays.

EURObanner is 200 cm in height and available in widths of 60 cm, 85 cm and 100 cm.

EURObanner-mini is a specially developed small format for big needs.

EURObanner-mini also allows exhibitors to use one or both sides for displays.

The height is 160 cm and the width is 50 cm. Why not let your banner fly?

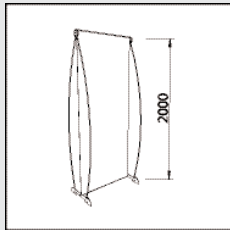

EURObanner - mini

EUROroll III is an innovative roll-up display in a clear and modern design.

It enables you to set-up and to communicate your message in just a few seconds.

The lightweight and simple EUROroll III construction system makes it easy to exchange graphics panels and quickly becomes a faithful companion for trade fairs, presentations, seminars and congresses.

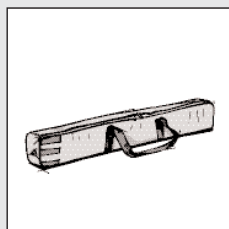

The combination of adjustable feet, magnetic connectors, a unique logo strip and large-scale graphics opens up almost countless possibilities for displays.

EUROroll III Simple, speedy and successful set-up!

- 1 - vertical ad space 85/100/120 x 200 cm
- 2 - horizontal ad space 86/101/121 x 4.5 cm
