

How to send us your data

-  **Internet access for Data transfer:**
<https://share.messe.at>
-  **E-Mail**
to the responsible Project Manager
-  **Send to: Systems Standbau Gesellschaft m.b.H.** | Am Messezentrum 7 | 5020 Salzburg
we use:
 - DVD
 - CD Rom
 - Usb Sticks

Programmes and formats we use

-  **Adobe Photoshop CS5**
PSD, TIFF and EPS files are the most convenient formats. Please send no JPG compressed files and create the files in a **CMYK Mode**. Don't use fonts types and logos up to the Photoshop CS Version - there is no vectorization possible!
-  **Adobe Illustrator CS**
Please transfer everything (fonts and drawings) in vector datas! Convert into paths.
-   **Adobe InDesign CS 5** - please send us ready-to-print files!
Quark X-Press 6,5 (Mac) - always attach all fonts. Don't save as eps files!
-  **Adobe Acrobat 8 Professional**
- please send us ready-to-print files!
-   **Dateintypen**
Although we can deal with other types of data such as JPG, BMP, CDR, WORD & EXCEL - this may entail additional charges.

Data Preparation

As a rule, the size ratio of **1 : 10 applies to 600pixels/inch**.

Please **vectorize ALL fonts!**

In order to ensure colours are portrayed accurately we require a representative reference layout (**PROOF**).

Colours may be reproduced differently depending on the medium used. To ensure our colour correspond with yours we require high quality colour proofs. A conventional colour copy is not accurate enough.

If we are not provided with a representative colour proof or colour details, no subsequent complaints as regards colour deviations!
